*Each cabin includes an under-counter fridge and freezer. We recommend bringing a cooler should you anticipate needing more space, however please avoid purchasing disposable Styrofoam coolers. If you are unable to bring a reusable cooler, we can provide you with one (based upon availability). Additionally, ice and [North of Nowhere](#) meal kits can be purchased onsite.

Firewood can be purchased in advance of your stay by emailing bookings@roambeyond.travel, or from your guest experience manager throughout your stay. We charge \$10 for one large tub of firewood.

*If planning to explore Glacier National Park, we highly recommend that guests bring their own bear spray. If you forget, bear spray may be obtained from local businesses in the area. ROAM Beyond has some bear spray onsite that may be borrowed if and when available.
