

## Glacier Site Logistics

We are so excited for you to join us soon at one of our sites! There is important information throughout this document, so please read carefully. We hope you enjoy your time with us at our site, and please feel free to reach out with any questions! If you'd like to learn more about the ROAM Beyond experience, feel free to explore our website.

### Know Before You Go

Staying with us is a unique off-grid experience with a focus on conservation, sustainability, and responsible travel. What does this mean? It means that we encourage conservation and mindfulness throughout your stay, especially as it relates to the amenities listed below.

**Power:** Our roaming cabins are seasonally off-grid, so we ask that all guests are mindful of their power consumption. Our off-grid cabins run on solar energy, so please be sure to turn off lights and other electrical components when leaving your accommodation.

**Water:** Each cabin is equipped with a 29-gallon water tank. Water is refilled every other day after you arrive, so please limit water use while using the sink and shower to ensure that you don't run out.

**Toilets & Showers:** Each cabin is equipped with a private shower and cartridge toilet (please alert your Guest Experience Manager if you need to have your portable waste tank swapped out). In an effort to conserve as much water as possible, we ask our guests to take shorter, staggered showers. Additional showers are available inside the lodge, and we also have heated outdoor showers in the summer months
